COMBATING YOUR CURRENT LABOR ISSUES THROUGH GREAT LEADERSHIP
 TIME: 2:30 p.m.–4:00 p.m. SPEAKER: Adam DeLamielleure, Unilock Michigan Inc.

In today’s construction industry, most every trade is dealing with labor issues, including the green industry. But is labor the only issue? What about leadership? Although the principles are the same, leadership in 2018 looks different and needs to be intentionally developed throughout an organization. Leadership is different today, but essential. Come and learn various methods for developing your leadership style and techniques to motivate today’s labor force and make your company a place employees want to work!

Adam DeLamielleure is a Green Industry “lifer.” He grew up in a family of landscapers and started working in design/build in high school. He earned a Bachelor’s of Science in Horticulture from Michigan State University in 1996. After graduation, he continued working for various landscape design firms, ultimately becoming a hardscaping specialist. In 2008, he left the design/build world and began working at Unilock as a Territory Manager.
